

## **Prevent Duty Statement**

### **Prevent Notice**

#### **Important Message to all Students Regarding the Prevention of Extremism and Radicalisation**

To all Students

Here at London Churchill College (LCC), we are committed to providing and maintaining a friendly and safe environment for all our students so that they can engage with their studies in secure surroundings both physically and online.

The management and staff of LCC recognise the responsibility of maintaining a safe environment and promoting the welfare of all our students and we deplore radicalisation, extremism and terrorism of any kind.

To that end, we fully support the latest governmental guidelines to be vigilant against any such potential threats, to promote British values and to encourage students to regard others with respect and courtesy.

Consequently, we have in place a policy on Preventing Extremism and Radicalisation as well as an incident reporting procedure and both are available on our VLE.

Please familiarise yourselves with these documents, and if in the regrettable event that you identify something suspicious, please report any such behaviour to our student engagement team or personal tutor team.

Let us all make sure that LCC remains a pleasant and safe environment for all, irrespectively of our diverse national, regional, religious and ethnic identities, or sexual orientation and have mutual respect and understanding for each other.
